Course description

- The course will be conducted using a mixed-mode. The students, who are not in Hong Kong, will do Zoom-mode. The students in Hong Kong will take face-to-face mode.
- The students will present their work at two full-day symposiums (the detailed timetable will be updated after getting a list of the presenting students). Each day has four sections containing 12 talks.
- Each student will present for 20 min and will have 5 min for Q/A.
- To avoid the time conflict and to be easier for us to secure the lecture hall for a whole day, the symposiums will take place on **two Saturdays, Oct 30 and Nov 20**. The venue will be updated later.
- The attending students need to join **at least 6/8 sections** to pass the course. The seats (with labels) will be assigned to the students before the meetings. The TAs will check your attendance in every section. The Zoom-mode-taking students are requested to show their attendance by turning on their Zoom videos.
- The Head, PG coordinator, or Chair professors in LIFS will be invited to have an Opening remark.
- One best presenter will be selected for each day (polling in Zoom). The best presenter might be awarded. For example, the awarded students might earn slots to present at the Inter-University Symposium, usually at the end of the Spring semester, as HKUST representatives.

Assessment scheme

- All students need to join **at least 6/8 sections** to pass the course.
- The presenting students need to submit the talk titles and abstracts 2 weeks before the meeting. They also need to present and give a talk.

The course schedule

Date	Time	Venue	Contents
Sep 2, 2021	17:00-18:00	Only Zoom	Course introduction
Oct 30, 2021	9:30-9:45	LT - F	Opening remarks
